Copenhagen, Denmark

Highly experienced software engineer looking to join enterprise-level software development teams to contribute to large-scale projects.

WORK EXPERIENCE

Sambla Group   **May 2023 – Present**
Senior Software Engineer   *Copenhagen, DK*
- Sambla Group owns and operates several of the leading comparison platforms for consumer loans, credit cards and mortgages in the Nordics as well as providing a loan brokerage white label solution to partners
- Maintaining, expanding and supporting our critical REST API for banks and credit institutions
- Developing microservices for our new affiliates platform powered by PHP and Aurora DB
- Helping data/analytics and AI teams make sense of our data by integrating into data warehouses

Worksome   **Nov. 2021 – Apr. 2023**
Senior Full-stack Engineer   *Copenhagen, DK*
- Designing and extending our public GraphQL API using Laravel Lighthouse
- Writing automated tests using Pest (a new PHP testing library, inspired by JEST)
- Created seamless integrations with Salesforce Lightning
- Implementing UI designs and maintaining our internal components (Worksome Design System) library and updating our Vue 2 components to Vue 3 utilizing the composition API

Avid Technology Development   **Feb. 2020 – Oct. 2021**
Full Stack Engineer   *Tehran, IR*
- Developed the C# backend of an ebook management/shopping platform used by publishers and universities
- Technologies used include ASP.NET Core, React, Readium LCP DRM, Docker, AWS

Sarvehana Psychological Research Co   **Aug. 2018 – Jan. 2020**
Full Stack Developer   *Tehran, IR*
- Developed a C#/.NET based live peer-to-peer and group video chat app using a Vue PWA with WebRTC

Armandar   **Jan. 2017 – Jul. 2018**
Full Stack Developer   *Tehran, IR*
- Worked on an online printing services aggregator for customers in Tehran, using ASP.NET Core and C#

EDUCATION

Azad University of Karaj   **2014 – 2019**
Bachelor's degree, IT Engineering   *Karaj, IR*
- Finished an internship program at a SaaS startup, contributed to the backend of an ASP.NET Core powered digital content webshop builder, similar to Fiverr (2019)
- Member of Computer Society of Iran (2015 – 2017)
- Founded a startup called "UNIVER30t" providing a Learning Management System (2016 – 2019)
